Color Usage Guidelines

For Posters & Marketing Materials

Primary Layout (Dark Emerald #062f21)

- Use for text, headings, and main visual elements
- Conveys trust, sustainability, and environmental focus

Secondary Accent (Solid Mint #0f9f6e)

- Use for call-to-action buttons
- Use for highlighting important information
- Creates energy and draws attention

Light Accent (Light Lime #bef264)

- Use sparingly for pop elements
- Use in hover states or animated elements
- Maintains visual interest without overwhelming

Background (Warm Alabaster #fafaf9)

- Use as poster background or large fills
- Represents cleanliness and sustainability

Design Philosophy

The Greenovators 2026 design system emphasizes:

- **Sustainability:** Emerald and mint colors representing environmental consciousness
- **Clarity:** High contrast text on light backgrounds for readability
- **Modern Minimalism:** Clean lines, subtle shadows, and purposeful spacing
- **Accessibility:** WCAG AA compliant color contrasts
- **Performance:** Optimized animations using cubic-bezier easing for smooth 60fps transitions
